Matters for Consideration by Breakout Groups

All groups

In relation to your group's allocated challenge(s) and the corresponding material and questions in the Issues Paper (**Agenda Item 8**), the group is asked for its views on the particular questions posed to the Board in relation to each challenge (as noted at the end of the section relating to each challenge in the Issues paper). In general these relate to:

Question 1:

Whether the Task Force analyses and proposals presented, from which the Task Force proposes to develop the phase 2 guidance, appropriately responds to the identified aspects of guidance needed to address your group's allocated challenge.

Question 2:

Where the group considers it would be helpful to use examples to illustrate concepts and whether the group has any practical examples that the Task Force may be able to use.

But where there are additional or more specific questions, the group is asked to consider those, in addition to the questions above.
