3. It is subject to period revision and change by the IAASB, informed by the Steering Committee discussions.

¹ The IAASB considers possible areas on which standard-setting may be an appropriate response in developing its Work Plans. As noted in the IAASB's Due Process, a proposal to start a new project is prepared based on research and appropriate consultation (e.g., feedback from a DP), with consideration given to the costs and benefits of the anticipated output of the proposed project. Project proposals identify the objectives of the project and explain how achievement of those objectives would serve the public interest. The IAASB CAG comments on project proposals and the IAASB approves project proposals. The approval of a project proposal marks the commitment of the IAASB to a standard-setting project, and the project proposal serves as the basis for the future ED.

² Discussion and possible outputs on other topics relevant to financial institutions that are not covered in detail in the combined discussion paper are expected to continue in 2016 (e.g., effect of IFRS 9, *Financial Instruments*, guidance on the relationship between auditors and supervisors, etc.).

³ ISA 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*

⁴ ISA 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement*
