

Mapping of the Requirements in Proposed ISSA 5000¹ to Other IAASB Standards and Guidance (Supplemental)

The extent to which the exact wording in the existing IAASB standard or guidance has been used in ISSA 5000 depends on its suitability in the context of sustainability assurance engagements. The wording whilst used as a base for the requirement, has been adapted for sustainability assurance and amended based on Board and Task Force discussions and comments, as a result some wording has been used in its entirety, some phrases or sentences are word for word and others have been significantly amended. **Table 1** maps the requirements from proposed ISSA 5000 to other IAASB Standards used in the drafting and **Table 2** maps the requirements in ISAE 3000 used in the drafting to proposed ISSA 5000.

Table 1: Mapping in Proposed ISSA 5000 Requirements to Other IAASB Standards and Guidance

This table lists the requirement paragraphs in proposed ISSA 5000 with the paragraphs in IAASB standards and guidance that were used as a base for the requirement.
