PREFACE TO THE INTERNATIONAL QUALITY MANAGEMENT, AUDITING, REVIEW, SUSTAINABILITY AND OTHER ASSURANCE, AND RELATED SERVICES PRONOUNCEMENTS

Introduction

1. This preface to the *International Quality Management, Auditing, Review, Sustainability and Other Assurance, and Related Services Pronouncements* is issued to facilitate understanding of the scope and authority of the pronouncements the International Auditing and Assurance Standards Board (IAASB) issues, as set forth in the IAASB's Terms of Reference.

The IAASB's Pronouncements

IAASB Authoritative Pronouncements

3. The IAASB's pronouncements govern audit, review, sustainability and other assurance, and related services engagements that are conducted in accordance with International Standards. They do not override the local laws or regulations that govern the audit of historical financial statements or assurance engagements on sustainability or other information in a particular country required to be followed in accordance with that country's national standards. In the event that local laws or regulations differ from, or conflict with, the IAASB's Standards on a particular subject, an engagement conducted in accordance with local laws or regulations will not automatically comply with the IAASB's Standards. ~~An professional accountant auditor or practitioner~~ should not represent compliance with the IAASB's Standards unless the ~~professional accountant auditor or practitioner~~ has complied fully with all standards relevant to the engagement.

...

Other International Standards

...

15. The basic principles and essential procedures of a Standard are to be applied in all cases where they are relevant in the circumstances of the engagement. In exceptional circumstances, however, an professional accountant-auditor or practitioner may judge it necessary to depart from a relevant essential procedure in order to achieve the purpose of that procedure. When such a situation arises, the professional accountant-auditor or practitioner is required to document how alternative procedures performed achieve the purpose of the procedure and, unless otherwise clear, the reasons for the departure. The need for the professional accountant-auditor or practitioner to depart from a relevant essential procedure is expected to arise only where, in the specific circumstances of the engagement, that procedure would be ineffective.

...

Professional Judgment

17. The nature of the International Standards requires the professional accountant-auditor or practitioner to exercise professional judgment in applying them.

Applicability of the International Standards

18. The scope, effective date and any specific limitation of the applicability of a specific International Standard is made clear in the Standard. Unless otherwise stated in the International Standard, the professional accountant-auditor or practitioner is permitted to apply an International Standard before the effective date specified therein.
